Residential on 0.15 Acres

NONE, Fairview, Alberta

Looking for a comfortable house to move into with minimal renovations? If you are, then this place is for you. The house was built in 1985. The roof was redone in 2015. In 2020 the single lane parking was expanded into a double car driveway. The furnace was replaced in 2023, and central air conditioning was added. The large front window was replaced with PVC window in 2024. In 2025 four more upstairs windows were replaced with new PVC windows. The back deck was repainted in 2025. The back shed looks good and was shingled in 2025. Other rooms in the house upstairs and in the basement have been repainted over the years. The large back yard is fenced and there are no neighbors behind the lot. There is no garage on the property at the present time but there is plenty of room to construct one if that is important to you. This is a very well kept, comfortable home looking for a new owner. It could be yours but act quickly, there are not a lot of houses in this kind of condition in this price range.

Built in 1985
