Thoughtfully updated throughout, this home offers both luxury and peace of mind, starting with its solid brick exterior, double heated garage, and upgraded 200 amp electrical service.

Inside, you'll find an open-concept main floor flooded with natural light from floor-to-ceiling windows, perfectly framed by custom motorized Hunter Douglas blinds. These adjust at the touch of a button to showcase the view or provide privacy. The kitchen features modern cabinetry, granite countertops, a tile backsplash, stainless steel appliances including a beverage fridge, and flows seamlessly into the dining and living areas. The living room offers a cozy gas fireplace with built-in shelving, while the dining area opens onto a spacious balcony equipped with a natural gas line, perfect for summer grilling with a view.

The main floor also includes a bedroom near the front entrance and a three-piece bathroom. Downstairs, the spacious primary suite includes a walk-in closet and a luxurious five-piece ensuite. The lower level also features a wet bar with fridge, a two-piece bathroom, laundry area, and additional storage.

This home is packed with smart features including smart lighting with automatic dimmers, motion sensors, and customizable scenes, smart ceiling fans controlled by app, a Ring video doorbell, IQ-compatible garage door opener, and a Japanese-style smart toilet. The YOKO Link water detection system is installed under all sinks and water sources, and will automatically shut off the main water valve if a leak is detected.

A second balcony, also with a natural gas hookup, overlooks the river valley and provides a peaceful place to unwind and take in the scenery. For EV owners, the garage includes a Tesla charging station that also functions as a North American Standard charger, compatible with most electric and hybrid vehicles.
